##### Documents

NA

#### Functional Requirement

1. Created On is not sorted after you click on the header. The default one seem to be sorted but once you click on it, it should be Descending first, then click again, Ascending. Make sure the default one works too please.
2. Please make sure Estimated Date in weekly recap is aligned.

## Solution Summary

- Sort expression for Created on date is implemented.
- Estimated date text box will be aligned in the design page of weekly recap.

## Test Plan

[List test scenarios/cases to be executed here]

S.No	Test Scenario	Expected Results
1	Verify the sorting functionality on 'Created On' column of ticket details header in 'Home' page Click on 'Created On' column name. Click on 'Created On' column again.	On home page load the 'Created On' header should be displayed with ascending order. 'Created On' Dates should be displayed in ascending order only. 'Created On' dates should be displayed in descending order.
2	Verify 'Estimated Date' date field alignment in 'Weekly Recap' page.	Access the weekly recap page and 'Estimate Date' field should be properly aligned .

## Solution Details

- Sorting on WO\_Created is implemented at header level to work properly.
- Estimated date text box and calendar images will be aligned properly.

## Issues
