

SAP Note 1763939 - Confirmations not updated when release has zero quantity

Note Language: English

Version: 1 Validity:

Valid Since 12.09.2012

Summary

Symptom

You receive a release document in SNC that has a schedule line with zero quantity. You are also using the standard logic for generating supplier confirmations for the release. You notice that in this case supplier confirmations are not updated when the release is processed.

Other terms

REL, SCON, /SCA/SUPPLIER_CONF_NEW_RELEASE, /SCA/SUPPLIER_CONFIRMATIONS, /SCA/SCON_SA_REQUEST_HORIZON, 0,

Reason and Prerequisites

Program error.

Solution

Apply the attached automatic code corrections or the corresponding support pack. Should you have your own implementation apply the changes to that as well.
